## PROJECTS & TRAINING

**Internship:**

1) 4-Weeks internship in **Web Development** at **CodSoft.** (20/08/2023– 20/09/2023)

- During my internship at CodSoft, I worked on two key projects: E-Commerce Website, Travel Booking System.

**Projects:**

**1) Crypto currency Tracking** (CrypteX)

- **Skills & Tools:** HTML, CSS, PHP, JavaScript

- **Description:** "CrypteX" is a dynamic website for crypto and NFT trading, built using HTML and PHP with MySQL as the database. It offers users real-time asset pricing, trade booking, and portfolio management. Admins can add assets and confirm trades, while users can easily access news and perform transactions, making it a user-friendly platform for digital asset trading and information.

**2) Exceed soft skills** (I created website for Spoken English classes)

- **Skills & Tools:** HTML, CSS, PHP, JavaScript.

- **Description:** Explore a range of courses tailored to improve communication, teamwork, leadership, adaptability, and more. Elevate your professional and personal growth with our user-friendly platform, expert instructors, and practical exercises.

**3) Travel.com**

- **Skills & Tools:** HTML, CSS, PHP, JavaScript.

- **Description:** I have experience in developing and managing a tour and travel website dedicated to providing travelers with easy access to destination information and top recommendations. My focus is on enhancing the customer experience by offering online services and entertainment options during travel. I prioritize customer feedback to continually improve services and streamline the booking process for various tourist packages, including adventure tours.

## CERTIFICATE, AWARDS, ACHIEVEMENTS AND EXTRACURRICULARS

- Java (Coursera)
- Oops in java (Coursera)
